DISEASED BLOOD.

Humors, Blotches, Sores, Scales, Crusts and Loss of Hair Cured.

Terrible Blood Poison. Suffered all a man could suffer and live. Face and body covered with awful sores. Used the Cuticura Remedies ten weeks and practically cured. Remarkable case.

I contracted a terrible blood poisoning a year ago. I doctored with two good physicians, neither of whom did me any good. I suffered all a man can suffer and live. Hearing of your *Cuticura Remedies* I concluded to try them, knowing if they did me no good they could make me no worse. I have been using them about ten weeks, and am most happy to say that I am almost rid of the awful sores that covered my face and body. My face was as bad, if not worse, than that of Miss Boynton, spoken of in your book, and I would say to any one in the same condition, to use *Cuticura* and they will surely be cured. You may use this letter in the interests of suffering humanity.

I have been troubled with a skin and scalp disease 17 years. My head at times was one running sore, and my body was covered with them as large as a half dollar. I tried a great many remedies without effect until I tried the *Cuticura Remedies*, and am thankful to state that after two months of their use I am entirely cured. I feel it my duty to you and the public to state the above case. L. R. McDOWELL, Jamesburg, N.J.

Seeding is general. A large quantity of wheat is being sown of the varieties known as fyfe, club and golden drop. Past experiments have shown the golden drop wheat to mature earlier than the fyfe and at about the same time as the club wheat. Experiments are also being made with the Redfern wheat and the race horse oats, both by Geo. Glaister.

Robert English has received from Prof. Saunders, experimental farm, some butternuts and walnuts, which will be tested. Bob has completed the bridge over Red Deer creek.

RAILWAY PROSPECTS.

The news which has come to hand this week from Ottawa is of a decidedly encouraging nature. While it is not as definite and clear as we would wish to receive, it all points to the fact that the Government are anxious to give some assistance towards securing a railway to Prince Albert A perusal of our telegraphic news will show just what is being done, or rather what is reported as being done by the Government to secure the desired end. We must express the hope that the offer now being made will induce the promoters of the Regina and Long Lake road to push on the construction of that road without delay, not only to Saskatoon, but into this town. There is one objectionable feature about the offer set out in our despatch, and that is that no time is limited within which the road must be built to Saskatoon. If the time were limited to six months it would be much more satisfactory. As it is, the company may accept this arrangement and do nothing for a year or longer. It would also be more satisfactory if the resolution referred to would authorize the Government to make the same offer to any other road which might be inclined to accept it. We have not, however, sufficient information before us as to the nature of the deal referred to, and will reserve further comment until we receive more light. This action on the part of the Government should convince the traducers of Mr. Macdowall that he is leaving no stone unturned in his endeavors and determination to secure railway facilities for the district which he so ably represents. The offer, we consider is a very liberal one, and should be a strong inducement to any company having a charter to proceed forthwith to build their road. A railway coming here will not be penetrating a land of desolation and sterility, but will be opening up the most fertile and productive district in the whole of Canada. A road into Prince Albert will pay almost from the start, and as the country becomes thickly settled, as it speedily will, the profits to the railway company will be enormous.

In the speech made by the Hon. Senator Turner, on a motion made in the Senate by the Hon. Senator Girard, *re* McKenzie basin and country eastward to Hudson's Bay, we observe the following:—"The great trouble we have in the North West, in my opinion, is that our settlers and settlements are scattered over almost infinitude, and I think if you increase that difficulty you are going to do that country a great deal of harm. It is better that we should help those parties who are now settled there, and we should bear in mind that some of them settled there almost under "false pretences." I mean those who settled on the North Saskatchewan. It was originally intended to build the Canadian Pacific Railway two or three hundred miles north of the route finally adopted. I think in the interests of the country and the railway itself the present location is the better one, but it was a disappointment to those who settled on the Saskatchewan in the full expectation that the railway having been surveyed there, would be built by the northern route. Now, I think, it is our duty to assist in providing those people with railway communication. I have always had a very strong opinion on that subject, and in the very last conversation that I had with the late Hon. Thos. White, he agreed most thoroughly with me on the subject." Speaking further, he said, "it is well settled and a very fine country, too. My policy has always been to build a line—I do not care whether it is the extension of the Manitoba and Northwestern or Long Lake—to Prince Albert." It is very gratifying to find that one of the first senators in the Upper House acknowledges our right to have railway communication, and regards it the duty of the Government to supply the want.

The Amsterdam, from Rotterdam, passed the spot where the City of Chester had, the day before, sighted the Denmark, but nothing was then visible. It has been definitely ascertained that there were 722 persons on board the ill-fated steamer.

Dr. McAdam, of Winnipeg, who has been appointed physician to the Indians in the Battleford Agency, arrived at Battleford a short time ago, together with his wife and two children.

Last spring a bunch of cattle strayed away from a band belonging to Gallagher & McGregor, of Battleford, and although diligent search was made no trace of them could be found. A few days ago Sam. Ballendine found them on the plains, and notwithstanding that they had rustled for themselves all winter they are fat and in good condition.

The Battleford Herald says:—This beautiful spring weather would astonish people from the east. Here are our farmers in the beginning of April ploughing and sowing—some of them done sowing their wheat; gardens being made, the prairie bright with flowers, and the grass fresh and green. What a harvest a railway company would have reaped in bringing immigrants to this most favored section of the Northwest, had any company been energetic enough to have completed a railway last year.

(LUKE SHARP)

LUKE SHARP.

Mr. Roberts Barr, the "Luke Sharp" of the Detroit Free Press, is a humorous writer who has gained a reputation second only to that of "M Quad," a sketch of whom we published a few weeks ago.

Like M. Quad, Luke Sharp was "discovered" by the Free Press. In 1875 he was teaching in Canada. During vacation time a company with a friend, made a voyage in a small skiff from Detroit to Buffalo along the south shore of Lake Erie. The trip occupied a couple of weeks. Mr. Barr under the *nom de plume* of "Luke Sharp," wrote several papers describing the experiences of himself and friend, and sent them to the Free Press. The articles were published, running several weeks, and they immediately attracted wide attention, being reprinted in many other papers. Those who were so fortunate as to read them easily remember the exquisite, style in which the adventures and mishaps of "Luke Sharp" and his friend "Mac" were chronicled.

"Luke Sharp" was at once offered a position on the Free Press staff, and he has since written exclusively for that paper, delighting thousands every week with his laugh-provoking sketches.

In 1881 Mr. Barr was sent to England to establish the European edition of the Free Press, and in July of that year the paper was issued at 325 Strand, London, where is is still published with ever increasing success. Mr. Barr spent nearly three years in travelling over the greater part of Europe, writing accounts of his journeyings for the Free Press. It is his purpose to spend several months during this year to visit other points of interest in the old world, and readers of the Free Press will doubtless be treated to a series of interesting and humorous letters in his own inimitable style. "Luke Sharp" is a genial Schotchman, a native of Glasgow, and still a young man on the sunny side of forty; in the opinion of his many friends his best work is yet to come so our subscribers will do well not to lose any time but send one dollar to THE TIMES Office and they will be sent the Free Press for one year.

Nearly all the wheat in Manitoba has been delivered. About 1,000,000 bush. are in inland elevators and the balance, something over 1,000,000 bushels, is stored at Fort William elevator.

ST. GEORGE'S DINNER.

The Englishmen of Prince Albert, on Tuesday evening last, celebrated the anniversary of their patron saint by a dinner at the Queen's Hotel, which was prepared in Mr. Oram's usual first-class style. About fifty gentlemen sat down to dinner including a number of invited guests. Mr. T. E. Parker occupied the chair while the vice-chairs were filled by Staff-Sergt. Parker and Mr. Buckley. The seats on the right of the chairman were reserved for Hon. L. Clarke and C. Mair, but neither of those gentlemen were present. To the left of the chair were J. F. Betts, M.L.A., and John Stewart, president of St. Andrew's Society. After ample justice had been done to the bill of fare, the chairman in a short speech expressed his pleasure at seeing so many present and expressed the hope that it would result in the formation of a St. George's Society. He proposed "The Queen," which was responded to in a right loyal manner.

The next toast was that of "The Day we Celebrate." This was followed by a song, "The British Lion," from Const. Perry. The chairman next proposed the "St. Andrew's Society," coupled with the name of its president, Mr. John Stewart, who returned thanks for the compliment paid him and expressed the hope that another year would see a St. George's Society flourishing in our midst. He pointed out that such societies were useful and did a great amount of good in different ways. He referred to the organization of the St. Amirew's Society here some years ago, and was glad to say that it was in a flourishing condition and had relieved several cases of distress. Mr. J. L. Johnson here a sang in excellent style.

The last toast from the chair was that of the "Army and Navy," coupled with the name of Staff-Sergt. Parker, who made a suitable reply and was followed by Const. Bird, who sang "Balaklava" in a capital manner.

Staff-Sergt. Parker from the 1st vice-chair next proposed "The Gov.-General, the Lieut.-Governor and the Legislative Assembly," which was received and drank with enthusiasm and was responded to on behalf of the Assembly by Mr. Betts, M.L.A., in a short and humorous speech which took well with the audience. Mr. Geo. D. Northgraves being called upon sang "Rule Britania" in his usual good style.

"The Town Council of Prince Albert" was responded to by Coun. Woodman in an able manner. "Our Commercial Interests" were upheld by Messrs. T. J. Agnew and J.L. Johnson and Mr. Buckley favored the gathering with a song.

Mr. Buckley, from the 2nd vice-chair, proposed the "Learned Professions," cnupled with the names of the Rev. A. H. Wright and W. R. Gunn, M.A., each of whom responded in short speeches. J. D. Hanafin sang "Men of Harlock" and Const. Bird sang "Here on Guard am I." "The Ladies" was responded to by Mr. Hanafin in a neat and appropriate speech and Mr. Gunn replied to the toast of "The Press." This brought the programme to a close, but a number of volunteer toasts were proposed and duly honored, and a number of songs, by H. E. Ross, Staff-Sergt. Parker and others, were interspersed. Const. Walton favored the assemblage with a recitation which fairly brought down the house.

Altogether the dinner was a great success and passed off without a hitch of any kind. We hope that our English friends will now form a society and that hereafter the St. George's dinner will be one of the attractive features of the year in Prince Albert. One good feature of this dinner was the tatal absence of dry, lengthy speeches; the time being devoted instead to singing and conversation.

The St. John, N. B., Sun gives a complete account of the progress, position, commerce and industry of the City of St. John. In the twenty-four pages which go to make up that issue will be found an epitome of the commercial history of that city. The record published in the Sun is full of encouragement. It tells of the past history, of the enterprise, energy and grand future possibilities of Canada's great winter port. The Sun deserves great credit for its enterprise in getting up such a valuable number.

On Monday evening last a meeting of baseballists was held in Graham Neilson's house for the purpose of organizing a club to play the coming season. The meeting was called for 8 o'clock and at that hour about twenty-five players had assembled and proceeded to business. Mr. W. V. Maclise was asked to preside and Wm. McKenzie acted as secretary. It was decided to callt he club the "Prince Albert Baseball Club," and the following officers were elected: President, W. V. Maclise; vice-Pres., A. R. Burns; Sec., Alex. Messer; Treas, Wm. Y. Davis; Captain, Thos. Ballantyne; Committee, Chas. Mair, jr., and A. Ballentyne. Practices will be held every evening but more especially on Thursday and Saturday evenings. These were thirty-five names entered on the roll of membership of those who signified their intention of becoming members. From the enthusiasm display ed at the meeting baseball will be the popular game here this season. The ball outfit is expected by express next week and parctice will begin immediately.
